## HVS Hosted Virtual Server

Qty	Code	Description	Price
	14069	HVS Server 250 GB RAID1, 2 GB RAM, QuadCore CPU, p.m.	200,00
	13996	HVS Server 500 GB RAID1, 8 GB RAM, QuadCore CPU, p.m.	280,00
	14267	HVS Server 1500 GB RAID1, 24 GB RAM, QuadCore CPU, p.m.	350,00

All servers are dedicated physical servers with RAID-1 mirrored hard disks, server grade CPU, static IP address and 100 Mbit/s internet access bandwidth. Servers are located in a large scale datacenter in Germany (alternatively: USA) with air conditioning, uninterruptable power supply with emergency diesel aggregates, high security area and redundant internet backbone connection. Max. 8 GB RAM / 2 CPUs usable per VM.

One time installation fee is **490,-** per HVS server which also includes configuration of one IPsec PSK site-to-site VPN tunnel and up to three OpenVPN SSL tunnels, as well as complete first time configuration of the firewall according to your requirements (e.g. port forwarding, terminalserver access). The monthly fee covers free maintenance and emergency support. You will receive FTP access for uploading of VMware images or CD/DVD ISO files and admin access to VMware, allowing you to install as many VMs as you like, limited only by HVS disk space and server memory. You do not need any Linux knowledge for operating and administrating a HVS environment. The rental fee is payable monthly in advance. For internet traffic in excess of 5.000 GB per month bandwidth is reduced from 100 Mbit/s to 10 Mbit/s.

Contract duration: **12 months**, The contract will automatically prolongate for another 12 month period unless cancelled in writing at least **3 months** before expiration. All services are subject to the general terms and conditions of GEOTEK Datentechnik GmbH as published at [www.geotek.de](http://www.geotek.de). All prices are in **Euro**, German residents are subject to sales tax.

Online Backup is available via separate order form
